Re: Air Quality Permit Application received September 23, 2011 (Permit # 6133)

Dear Mr. Hank:

Pima County Department of Environmental Quality (PDEQ) received the modeling protocol for the Marana Landfill on December 2, 2011. PDEQ has reviewed and approved the protocol as presented. Any changes or additions to the modeling will have to be reevaluated.

In our incomplete application letter, V.E under the Required Information for the incomplete application requests that an ambient-air study be conducted as specified by the Control Officer. PDEQ writes to inform you that this study will be satisfied by completing the modeling as proposed in your modeling protocol. There is therefore no need to conduct a separate ambient-air study to satisfy V.E of the incomplete application letter.

The incomplete application response is still due on or before January 17, 2011.

If you have any questions please call me at (520) 243-7400.

Sincerely,

A handwritten signature in black ink, appearing to read "Mukonde Chama", written over a white background.

Mukonde Chama, P.E.
