WASTE DESCRIPTION

Explain the waste type (e.g. solid, liquid, sludge, soil, odor, consistency, possible contaminants, etc.)

Quantity of waste _____

How often generated _____

Describe how the waste was generated.

Are there chemicals used at the site where the waste was generated that may contribute to waste? If so, what are they?

(Include Material Safety Data Sheets(s), if available)

Are there any health hazards associated with the waste? If so, please describe them.

ANALYTICAL RESULTS

If samples of the wastes were collected and analyzed to determine if material is hazardous waste, please provide the analytical results and how the samples were collected. Include other pertinent information such as how the samples were delivered to the laboratory and chain-of-custody information. Samples MUST have been collected recently and be representative of the waste.

CERTIFICATION

I certify that the information provided above accurately describes the waste requested for disposal with Pima County. In addition, I certify that the analytical data submitted and samples collected are representative of the waste.
